

# Steelo

# Vision 360°

We go back to our roots, to our metal DNA with a deep commitment to sustainability, quality, design and innovation.

We reinvent the concept of storage with a 360-degree approach in order to respond to the current and future needs of Contract spaces.

# The colour defines your **Steele**

# Calm

We find refuge in the calmness of blue. We immerse ourselves in its hue, allowing its softness to envelop us and take us to a place of inner stillness.

In this space, away from the hustle and bustle of the world, we find the clarity to reflect and the strength to face the challenges of everyday life.

# Attraction

Attraction pulses in the depths of red, a hue that ignites passion and awakens the senses.

Red activates us and invites us to explore our limits; it connects us to the vibrant energy that surrounds us, exerting a powerful influence on our emotions and perceptions in the spaces we inhabit.

# Elegance

With their softness and neutrality, neutral tones become the perfect canvas on which to highlight details of elegance and sophistication.

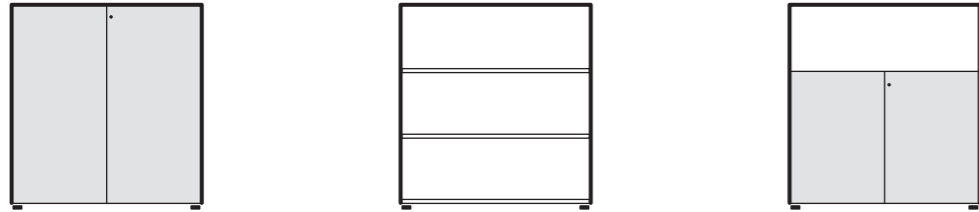

By combining them with the warm, natural tones of wood, we create a cosy and distinguished atmosphere that envelops us in an environment of tranquillity and good taste.
